F100
Air Cleaner

www.honeywell.com/yourhome/

Whole-House Air Cleaners trap a high percentage of airborne particles of the air passing through it.

What's in my home's air?

Remember the last time you saw sun beaming through a window? The visible particles that dance in a sunbeam, amount to about 1 percent of all particles in the air. That leaves 99 percent too small to be seen with an unaided eye. The effects of these invisible pollutants may be seen when it is too late—in soiling film that slowly coats walls, furnishings and draperies and in human discomfort.

Typical Household Particles

Here's A Solution

Professional Grade Media Air Cleaners – F100

Did you know?

A standard 1 inch furnace filter:

1. **Removes only some of the larger contaminants** that would otherwise enter your furnace. But, it removes only a small percent of dust, pollens, pet dander, plant spores, fungi, bacteria, tobacco smoke and other small particles that can cause harm.
2. **Restricts greater airflow in your heating system**, causing it to operate less efficiently and reducing the operating life of your equipment.
3. **Requires frequent replacement** every one to three months.

Whole House Air Cleaning: The Honeywell F100 Media Air Cleaner captures particles in your indoor air more efficiently than a one-inch disposable filter. Honeywell media air cleaners significantly reduce the antigens and allergens re-circulated through your home—providing you greater comfort and piece of mind.

Convenient, Easy Filter Replacement: It takes just a couple of minutes to restore your air cleaner to its original performance. No messy combs or complicated assembly is required. Replacement filters come fully assembled, ready to slide into your unit.

Upgrade when your needs or budget dictates: Install our F100 Media Air Cleaner and get the benefits of cleaner indoor air now—without locking yourself into one type of air cleaner. If you decide later that you need or want a more efficient Honeywell air cleaner, you can easily upgrade in the future without expensive modification to your ductwork.

Honeywell's
exclusive
AIRWATCH™
Performance
Indicator just
made your life
a little easier.

The AIRWATCH Indicator reminds you when to change your ultraviolet lights, humidifier pad and air filter.

*Efficiency is determined by the air passing through the air cleaner. Independent lab fractional efficiency testing.

Enhance the air that touches your family in every room of your home

Ask your Honeywell contractor for more information or go to www.honeywell.com/yourhome/

Model	F100F
Fractional Efficiency ¹ (at 0.3-0.4 microns)	15%
Fractional Efficiency ¹ (at 0.7-10.0 microns)	83%
Initial Pressure Drop (inches w.c.)	0.18
Dust Holding Capacity (grams)	73
Warranty	1 year limited
Clean Coil Guaranty	NA
AIRWATCH Indicator	Included
Sizes Available (inches)	20x25, 16x25, 20x20, 16x20

¹ Efficiency rating based on American Society of Heating, Refrigerating and Air-Conditioning Engineers Standards 52.2-1999.

Honeywell

Choose better indoor air for your family by installing Honeywell solutions. You'll enhance your comfort and peace of mind.

Ultraviolet Air Treatment Systems

Zap airborne germs and prevent mold spore growth on air conditioning coils

Whole-House Air Cleaners

Trap a high percentage of airborne particles of the air passing through it

Whole-House Humidifiers

Moisturize dry air to optimize humidity for your home

Zoning Systems

Control temperature by area in your home, saving energy and improving comfort

PerfectWindow® Air Exchangers

Ventilate your home to assure fresh air while minimizing energy loss

Programmable Thermostats

Save up to 30% in annual energy costs with this easy-to-use thermostat*
